SKILLS

TECHNICAL SKILLS

- HTML5, CSS3, JavaScript (ES6+)
- React.js, React Router DOM, Hooks (useState, useEffect)
- Reusable components and responsive design
- Node.js, Express.js, MongoDB (NoSQL)
- Git, GitHub, Postman
- Firebase (Auth and Realtime DB)
- Bootstrap, Styled Components
- RESTful API usage

OTHER SKILLS
- Teamwork
- Agile methodologies (Scrum)
- Effective communication
- Customer service
- Intermediate English

EDUCATION

Academic Training
• Systems Engineering – UTN – 2018 to Present

Web Development Program – CoderHouse
• Web Development (HTML, CSS) – 2022
• JavaScript – 2023
• React JS – 2022–2023
• Back-End Development – 2025

I have solid knowledge of HTML5, CSS3, JavaScript ES6+, and React.js. I have experience developing landing pages, integrating REST APIs, and building reusable components.

I'm familiar with Node.js, Express, MongoDB, Firebase, and version control tools like Git. I apply good development practices and agile methodologies (Scrum) to collaborative projects.

During my studies in Systems Engineering, I participated in academic projects using Python, highlighting the development of a music platform as part of teamwork.

I interned at CoderHouse, collaborating on the creation of a landing page for Matching, where I also coordinated technical tasks for the front-end development team.

I am currently seeking programming experience to achieve my goals and grow both professionally and personally.

EXPERIENCE

Telemercado SRL (2023-Present)

- Problem and complaint resolution for banking customers.
- Effective communication and active listening with a focus on the customer.
- Development of teamwork and empathy skills.

Matching – (CoderHouse Internship, 2023)

- Task assignment and follow-up with a focus on meeting technical objectives.
- Landing page development using React.js, React Router DOM, and reusable components.
- Responsive design implementation using Bootstrap and custom CSS.

💻 **Featured Projects**

🛒 Sport Dealership | JavaScript, HTML, CSS, React.js
Car buying simulator with filters, validations, and a shopping cart.
https://github.com/IgnacioRojos/Concesionario-Sport-React-Js.git

📚 Your Private Teacher | React.js, Firebase, Bootstrap
Teacher search engine with login, protected routes, and a real-time database.
https://github.com/IgnacioRojos/Tu-Profe-Particular-React

💻 Personal Portfolio | React.js, Netlify
SPA application with dark mode, animations, and project presentation.
